

Secrets to sustainable healthcare change

In this session we shared that by 2030...

- 80M people will have **3+ chronic conditions**
- U.S. healthcare spending projected to **exceed \$5.5 trillion**
- **1 in 5 Americans will be 65+**

...and you're struggling to get ahead of the curve

- Plans are doing everything they can to manage total cost of care, **yet costs continue to rise.**
- Healthcare remains **uncoordinated and disconnected**, leaving **gaps in the system** and opportunities for patients to fall through the cracks.

WHAT'S NEXT?

Health Connect 360 will change what you should expect of a health services company—offering the industry's only guaranteed clinical outcomes model.

CONSIDER THIS

- Member personalization, care coordination and guaranteed outcomes can lower your total cost of care.
- Plans that are looking for an alternative to purchasing ad hoc solutions now have another option.
